Dear Providence Families,

Thank you for your response to our COVID-19 parent survey! As expected, the 250-plus surveys submitted reflect a wide range of attitudes and beliefs regarding prevention efforts. The majority of our families support reasonable efforts for themselves and their children while in public. As always, our COVID Task Force is keeping a close eye on the situation and continues to work with the board and staff to help ensure Providence is doing its best to keep students safe and healthy this fall while continuing to provide students an engaging and enjoyable learning environment.

We value your prayers for guidance as leaders continue to make decisions during this unprecedented time. You will be receiving our more comprehensive plan by the end of next week.

In Christ,

Providence Administration Team
